VAISHNAVI SHEWALE

Data Analytics & AI/ML Engineer

+918468807561 vaishnavishewale10@gmail.com LinkedIn GitHub Pune, India

PROFESSIONAL SUMMARY

Computer Engineering graduate with hands-on experience in **Data Analytics**, **Python**, **SQL**, and **AI/ML** through internships and projects. Proficient in data cleaning, exploratory data analysis, data visualization, and database management using **Pandas**, **SQL**, and **Power BI**. Experienced in developing data-driven applications and working with APIs and databases, eager to leverage analytical and problem-solving skills to transform complex data into actionable business insights.

WORK EXPERIENCES

Artificial Intelligence Intern
Jan 2026 - Mar 2026

Rachnakaar Enterprises Pvt. Ltd. — *Nashik*

- Developed **AI-powered web applications** using Python and FastAPI, **reducing manual processing time by 30%**.
- Performed data preprocessing, feature extraction, and model evaluation to enhance model accuracy by 50%.
- Supported integration of AI components into backend systems and real-world applications.
- Collaborated with cross-functional teams to optimize system performance and reliability.

Technologies Used : *Python, LLM, FastAPI, PHP, MySQL, Hostinger, Supabase, Postman*

Artificial Intelligence Intern
Aug 2025 - Sep 2025

CodeAlpha — *Remote*

- Developed 2 AI/ML projects using Python, applying NLP, predictive modeling, and conversational AI techniques.
- Implemented predictive models and conversational chatbot functionality using **Python** and relevant AI/ML libraries and achieving 90% accuracy in model testing.
- Applied **Python-based AI/ML libraries** to build and test NLP workflows.

Technologies Used : *Python, NLP*

Full Stack Development Intern
Apr 2024 - May 2024

Acmegrade Solutions — *Remote*

- Learned and implemented frontend and backend technologies including HTML, CSS, JavaScript, and Node.js, achieving **90% task completion** during the internship.
- Built **1 full-stack project** using HTML, CSS, JavaScript, Node.js, Express.js, and MySQL.
- Participated in code reviews and hands-on mini-projects to apply full-stack concepts in real-world scenarios.

Technologies Used : *HTML, CSS, JavaScript, Node.js, Express.js, MySQL*

PROJECTS

RetailPulse — E-Commerce Analytics & Data Engineering Platform
Oct 2026 - Present

- Analyzed the Olist Brazilian E-Commerce dataset to assess data quality and identify business reporting requirements.
- Developed a Python-based ETL pipeline using Pandas to clean, transform, and load e-commerce data into PostgreSQL.
- Wrote SQL queries for sales and product analysis and built interactive Power BI dashboards to visualize revenue, order trends, and delivery performance.

Technologies Used : *Python, Pandas, PostgreSQL, SQL, Power BI, Git, GitHub*

FitScore — AI Resume & Job Matching Platform | Github
Jun 2026 - Oct 2026

• Built an AI-powered resume–job matching platform combining skill matching, TF-IDF and MiniLM-based semantic similarity into an explainable FitScore.
• Implemented MongoDB vector search and RAG with Gemini for grounded job recommendations and explanations; added LangGraph tool calling, state persistence and human-in-the-loop approval for agentic workflows.
• Developed an end-to-end job retrieval and ranking pipeline with skill-gap analysis and cloud deployment using Docker, Vercel and Render.

Technologies Used : *Python, FastAPI, Node.js, React, MongoDB, Gemini, LangGraph, RAG, Docker*

SafeSphere – Safety App for Women & Elderly | Github
Dec 2025 - May 2026

- Developed an Android safety application with **92% detection accuracy** for voice-keyword and shake-trigger SOS activation.
- Implemented secure emergency contact storage and a sequential calling workflow to quickly alert trusted contacts.
- Integrated offline speech recognition and 2 built additional features like a siren alert and fake call for user safety.

Technologies Used : *Java, Android Studio, Vosk API, React, Next.js, Supabase*

SKILLS

Databases :	MySQL, MongoDB, Supabase
Frameworks & Libraries :	React.js, Node.js, TensorFlow, PyTorch, Scikit-learn, Pandas, NumPy, PowerBI, Matplotlob, Seaborn
Programming Languages :	Java, Python
Tools & Platforms :	GIt, Github, VS Code, Android Studio, XAMPP, Jupyter Notebook, Postman

EDUCATIONS

Savitribai Phule Pune University
2022 - 2026

B.E. in Computer Engineering — *CGPA : 7.78*

R.B.H Girls School & Junior College | Maharashtra
2022 - 2022

Higher Secondary Certificate (HSC) — *Percentage : 85.17%*

R.B.H Girls School & Junior College | Maharashtra
2020 - 2020

Secondary School Certificate (SSC) — *Percentage : 91.80%*

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified Developer Professional, valid until 31 Oct 2027.
- Oracle Cloud Infrastructure 2025 Generative AI Professional, valid until 31 Oct 2027.
